# Product Overview

The **Sefram 7303** is a compact, affordable and versatile **pocket-sized digital multimeter**. It is suitable for AC, DC voltage, resistance, capacitance and frequency measurement. The measurement rate is 3/s, the AC/DC voltage measurement goes up to 600 V, and the resistance measurement goes up to 40 MΩ. The frequency counter works up to 5 MHz and the duty cycle is 0.1...99.9%. In addition, the 7303 digital multimeter performs diode and continuity tests with buzzer sound. The instrument is battery operated (2x 1.5 V), the operating temperature is 0...+50°C and the measurement category is IEC 1010 CAT III 300 V and CAT II 600 V. Practical is the hold function, which displays the current measurement.
